nylon™ Multifilament

Nylon Multi

Full Coverage, Soft, Supple, Strong and Attractive

Under the hood or across the floor, NYLON MULTI (NM) is the perfect sleeving product for protecting and improving the appearance of wires and cables. NM has been used in military wire harness applications for many years.

NM's fabric-like softness and flexibility hide surprisingly tough specifications. The high coverage sleeving meets or exceeds military specifications A-A-59301. NM is highly resistant to abrasion, cuts, common automotive and marine chemicals, UV damage and vibration. It will not rot or retain moisture.

The wide operating temperature range allows NM to protect delicate wiring in engine compartments and near exhaust systems.

NM creates a unique and attractive retro look when installed on a/v cables.
